

Franklin Classical School

Renweb Access

Parents and Students:

Greetings and welcome to the Franklin Classical School Umbrella Program! Here is information about our program administrative software, Renweb. Renweb provides 1) communication between the staff and parents via emails, postings, and announcements; and 2) parent access to student transcripts and other student information. Parents can also update family demographics (address, phone, etc.). I encourage you to explore any links that are available in Renweb. The information accessible in Renweb is there for your convenience

All families of currently enrolled students can access Renweb/ParentWeb. **Access to ParentWeb is linked directly to your email address.** The email address you provided on your application is used. You **MUST** contact the school office any time your email address changes for you to receive uninterrupted access to ParentWeb. If you cannot access ParentWeb, it is because there is not an email address in Renweb for you. You will need to call me or email me your email address. Please put "RenWeb Access" in the subject line of emails. Please read the following information in it's entirety. If you have any problems after following all of the steps, email me at office@franklinclassical.com for support.

To access the Parent's Web Site: Access the internet and type in the address www.renweb.com.

Click on Parent's Web Login.

Log in as follows: District Code is **FCS-TN** then, **type in the email address that you provided to the school.**

Click **new parent login**.

You will be emailed a password to the email address you typed in, which must be the same email address that you provided to the school.

After receiving the password, go back to the first screen and type in your password to log in. Make sure the District Code and your email address are still listed. If not, re-type them. Select "Continue."

Again, please feel free to email me at office@franklinclassical.com if you require assistance.

Grace and peace,

Caren Covington Jones
Umbrella Program Director
